ABU TAHIR SK

Full-Stack Web Developer

Murshidabad, WB, India • +91 8371013400 • abutahir2626@gmail.com • github.com/abu-tahir-sk • linkedin.com/in/abu-tahir-sk • vercel.com/abu-tahir-sks-projects

PROFESSIONAL SUMMARY

Motivated and detail-oriented Full-Stack Web Developer with practical experience engineering responsive web applications, reusable UI components, and secure RESTful APIs. Possesses strong working knowledge of React.js, Next.js (App Router), TypeScript, Node.js, Express.js, PostgreSQL, and MongoDB. Demonstrated ability to deliver end-to-end full-stack projects featuring relational database modeling with Prisma, JWT/Firebase authentication, and third-party API integrations. Eager to contribute technical skills, clean coding practices, and problem-solving abilities to an entry-level developer role or software engineering internship.

TECHNICAL SKILLS

Frontend Development:	React.js, Next.js (App Router), TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
Backend & APIs:	Node.js, Express.js, RESTful API Development, JWT Authentication, Firebase Authentication
Databases & ORM:	PostgreSQL, MongoDB, Prisma ORM, Neon Serverless Postgres, Mongoose
Tools & Libraries:	Git, GitHub, Vite, React Router, Framer Motion, Cloudinary CDN, Postman, Vercel

FEATURED TECHNICAL PROJECTS

DocuFlow – Business Document & Invoice Management SaaS Live Demo | GitHub

Tech Stack: Next.js, React, TypeScript, PostgreSQL (Neon), Prisma ORM, Tailwind CSS, @react-pdf/renderer

- Engineered a production-ready SaaS application allowing businesses to create, customize, and manage commercial invoices.
- Implemented a real-time calculation engine accurately handling subtotals, configurable multi-tax brackets, and line-item discounts.
- Integrated `@react-pdf/renderer` for real-time document preview and direct generation of print-ready vector PDF files.
- Architected normalized database schemas using Prisma ORM to efficiently persist client directories, company profiles, and item lists.

Shopora – Full-Stack E-Commerce Web Application Live Demo | GitHub

Tech Stack: Next.js (App Router), React, TypeScript, Zustand, Tailwind CSS, Cloudinary CDN, Next-Auth

- Built an e-commerce platform with fast product catalog browsing, dynamic category filtering, and instant search queries.
- Architected global client-side state for shopping cart and wishlists using Zustand, synchronized with browser local storage.
- Connected Cloudinary media CDN for automated image delivery, transformation, and optimization, speeding up page load times.
- Integrated secure authentication and structured multi-step checkout workflows with responsive, mobile-first Tailwind styling.

Gadget Heaven – Electronics E-Commerce & Tech Showcase Live Demo | GitHub

Tech Stack: React, React Router, Context API, LocalStorage, Tailwind CSS, Flowbite, React Icons

- Developed a responsive electronics catalog with multi-category filtering for laptops, smartphones, smartwatches, and accessories.
- Architected dual cart and wishlist state tracking powered by React Context API with LocalStorage synchronization for persistent data.
- Built an interactive product specification view with real-time stock availability, rating indicators, and category tabs.
- Implemented price sorting algorithms (descending/ascending), subtotal accumulation, and modal purchase confirmation dialogs.

EDUCATION

Bachelor of Arts (B.A.) in Political Science (Honours) – Murshidabad Adarsha Mahavidyalaya, University of Kalyani **Completed: 2025**

Higher Secondary (Class XII) – West Bengal Council of Higher Secondary Education (WBCHSE) **Passed: 2022**

Secondary Education (Madhyamik / Class X) – Amirabad High Madrasha **Passed: 2020**
